Delaware Health Science Alliance
Curriculum and Education Task Force

Creating Clinical and Research Teams for the Future
Workshop on Collaborative Education for Clinicians and Scientists

Tuesday, January 10, 2012
Ammon Education Center, Christiana Hospital

The Delaware Health Science Alliance Curriculum and Education Task Force will host “Creating Clinical and Research Teams for the Future: Workshop on Collaborative Education for Clinicians and Scientists” on Tuesday, January 10, 2012, at the Ammon Education Center of Christiana Hospital. All NSF grants and many NIH grants require educational or mentoring components for their grant applications. This workshop focuses on developing skills to write educational grants. The day will include information on how to obtain educational grant funding, setting goals and evaluating an educational program, and developing an application for the DHSA Education Pilot Award. Members of the DHSA Curriculum and Education Task Force will provide mentorship throughout the day, and will work with workshop participants to develop robust educational teams to deliver cutting edge team-based education to future clinicians and scientists, consistent with the changing needs of our healthcare and research organizations.

Who should attend? All interested faculty from A.I. duPont/ Nemours, Christiana Care Health System, Thomas Jefferson University, and the University of Delaware with an idea for new or expanded education or training at any level (undergraduate, professional, graduate, continuing education, or faculty development). Attendance is free and meals will be provided, but seating is limited and you must register in advance.

About DHSA Education Pilot Funds Pilot funding is available, on a competitive basis, for development of new collaborative, interprofessional or interdisciplinary clinical or research education programs. Eligible applicants will include education team members from a minimum of two DHSA institutions. Curriculum and Education Task Force members are available to help create linkages across the institutions – please contact us for more information.

For More Information Contact Curriculum Education Task Force co-chairs, David Usher, PhD, University of Delaware (dusher@udel.edu) or Christine Arenson, MD, Thomas Jefferson University (christine.arenson@jefferson.edu).
